COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In the Notice of Allowance, the Examiner provided the following comment:

Applicant teaches luminaries including a plurality of lamp located below at least two asymmetrical reflectors symmetrically positioned to one another, and a centrally located symmetrical reflector. Both the symmetrical and asymmetrical reflectors feature a generally parabolic shape. The asymmetrical reflectors a peak-shape portion at the top, with the inner side of such portion having a narrower parabolic shape than the outer.

Applicant understands that this portion of the Examiner's statement pertains to the broader aspects of the invention as recited in independent claims 1 and 17.

The Examiner provided the following additional comment:

In addition, the lamps associated with the symmetrical reflectors being located equidistant among the width of such reflector, with the lamps associated with the asymmetrical reflectors being closer to the inner side of such reflectors.

The Applicant contends that this portion of the Examiner's statement pertains only to the narrower aspect of the invention recited in dependent claim 15.

Respectfully submitted,

By:
